Oil Field Chemicals & Services

Oil Field Chemicals & Services

For 29 years, Eunisell has been formulating and manufacturing specialty chemicals.

We develop and produce oil field chemicals that enable customers to maximize value in their oilfield operations and increase the overall performance of their wells safely. We supply key products and solutions to a wide base of customers operating in Africa.

Our chemical solutions help Exploration & Production companies get the most from their wells and allow them to increase output with cost effectiveness and environmental benefits.

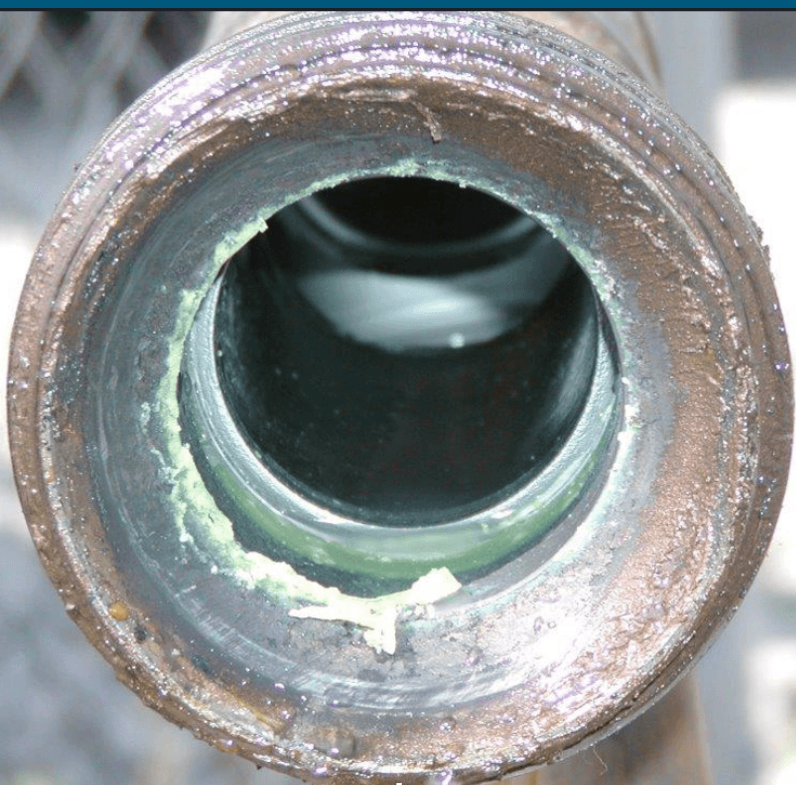

Oil Field Chemicals & Services

Our Product Lines:

- Production Chemicals
- Subsea Fluids
- Drilling & Completion Chemicals
- Dewaxing Services
- Descaling Services
- Water Filtration & Purification
- General Chemicals
- Produced Water Treatment Chemicals & Technology
- Gas Treatment Chemicals
- Stimulation Chemicals
- Process & Pipeline Chemicals
- Workover Fluids
- Cleaning & Hygiene Chemicals
- Heat Transfer Fluids
- Specialty Lubricants

Other Remedial Services

De-Waxing

↓
We help clients clean out
process lines blocked by wax
and heavy hydrocarbons

↑
We inhibit the formation of wax by
lowering the pour point of the fluid

De-Scaling

We help clients unlock more barrels by removing scale hurdle to fluid flow

We also help clients prevent the formation of scales

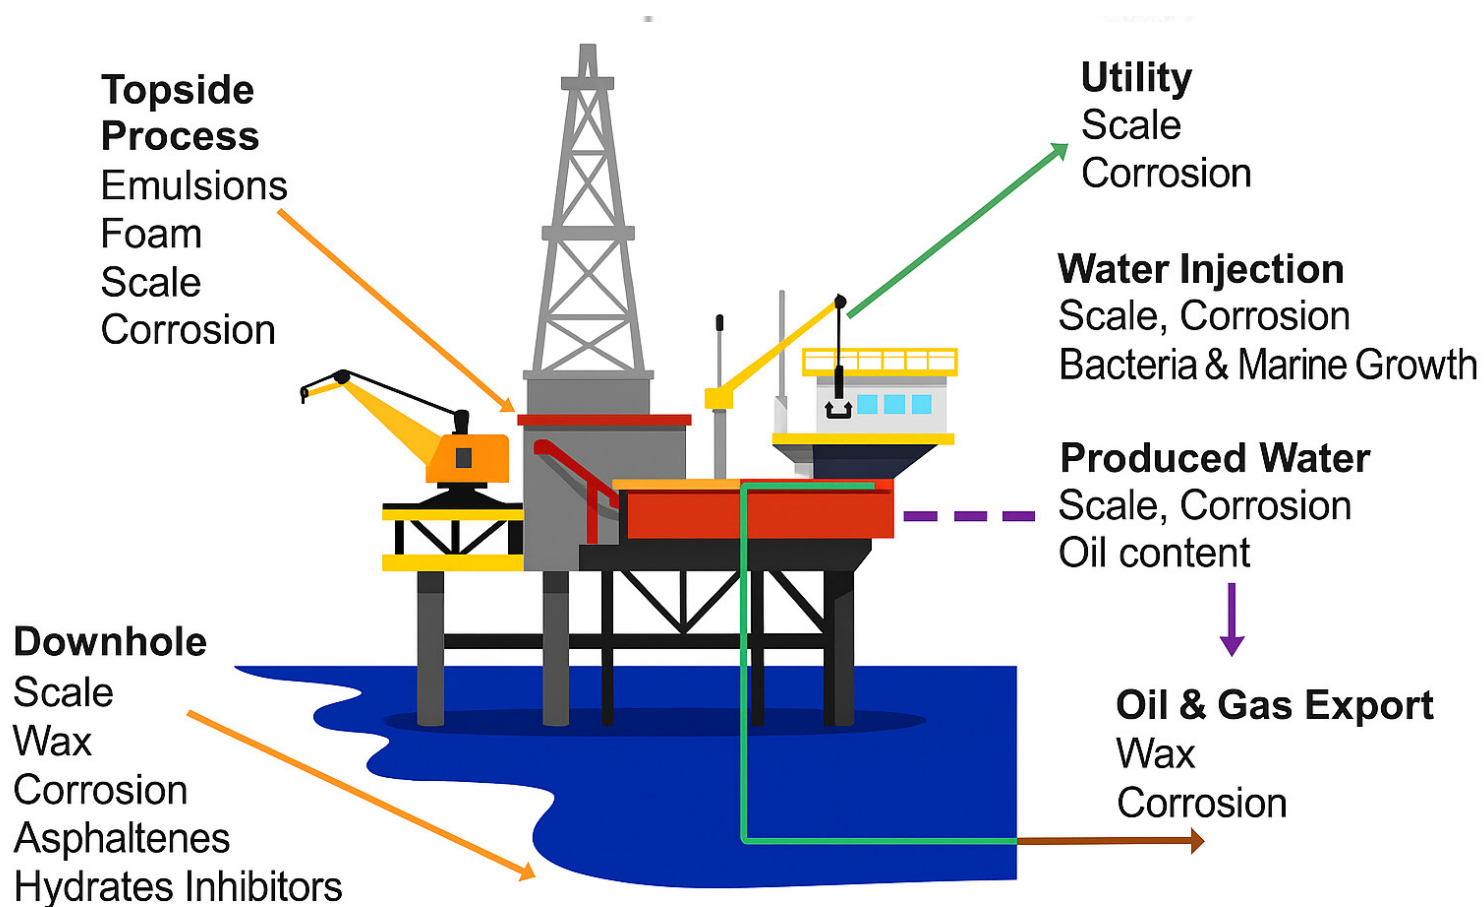

In-Country Blending Plant

We have invested in capacity expansion by building a new chemical blending plant in Lagos.

Laboratory Services

Our Warehousing & Storage Services

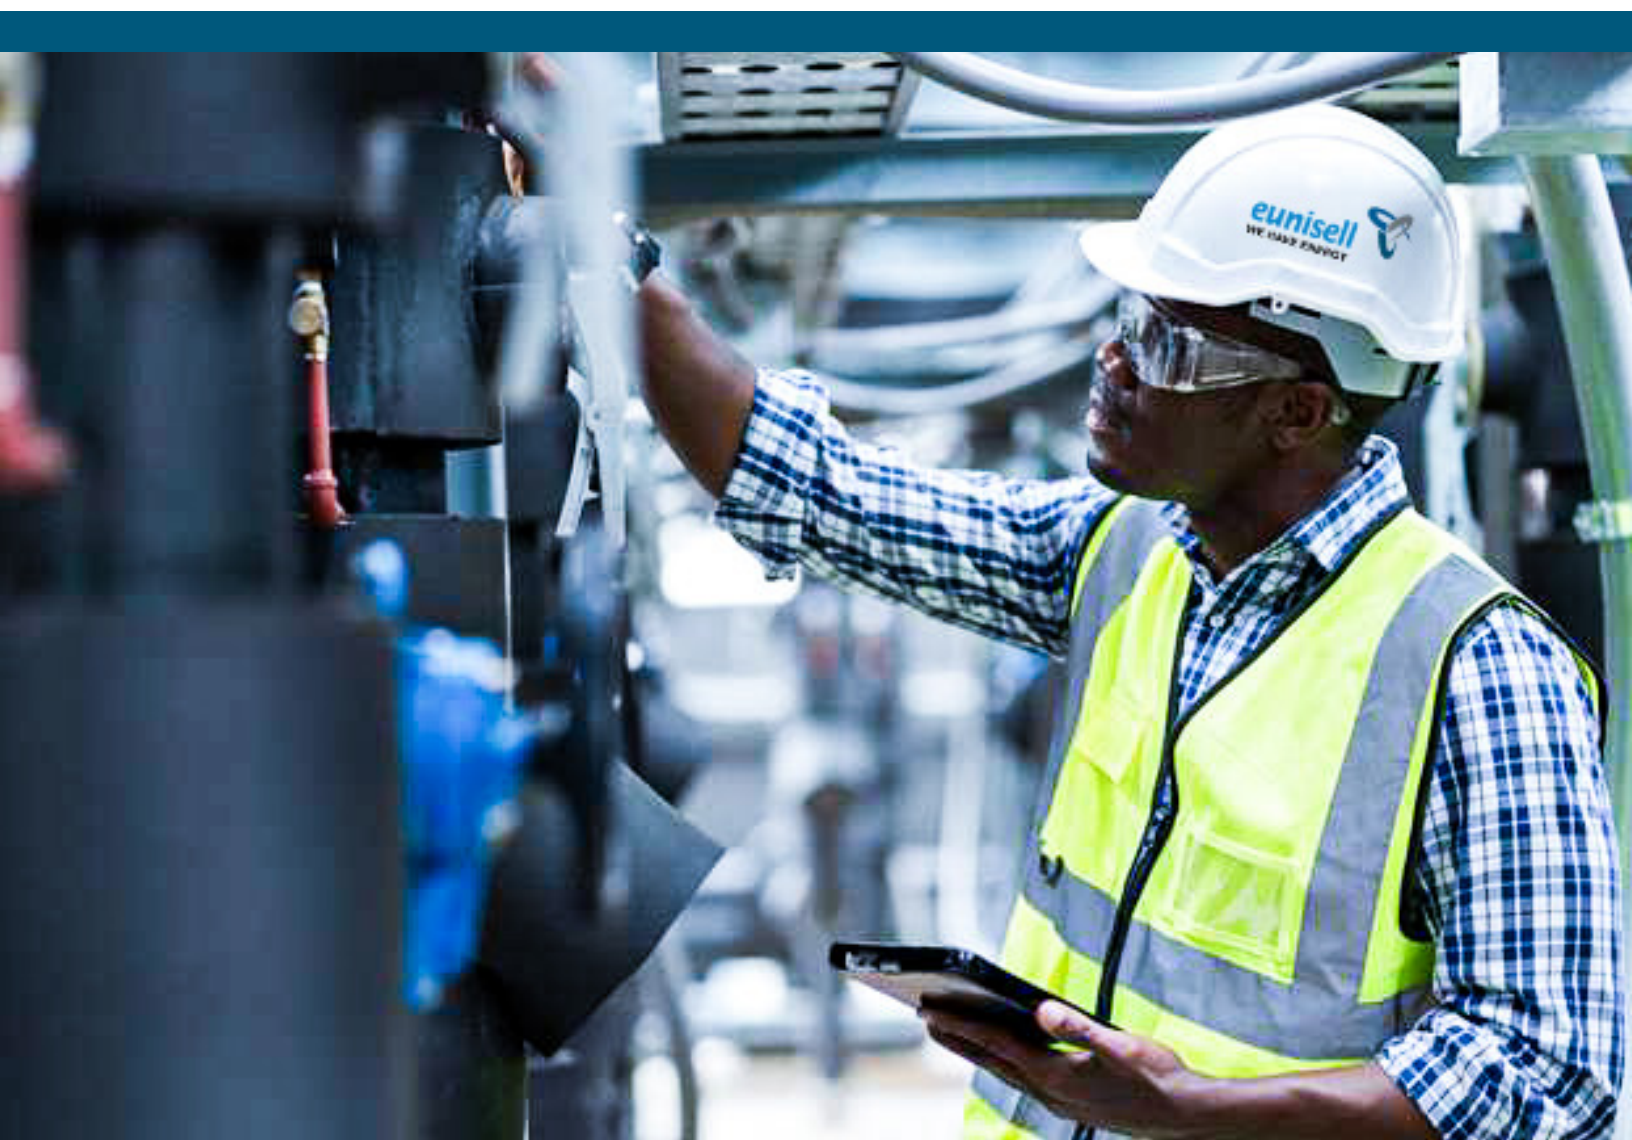

Eunisell offers secure, state-of-the-art warehousing solutions tailored for the safe storage of Oilfield chemicals. Our warehouses are strategically located, fully equipped with modern safety systems, and managed by trained personnel to ensure compliance with regulatory standards.

By providing dedicated storage facilities that meet international best practices, Eunisell helps clients overcome key challenges related to chemical storage—such as safety risks, regulatory compliance, limited onsite storage capacity, and supply chain inefficiencies. This service ensures reliable inventory management, reduces the risk of contamination or accidents, and supports just-in-time delivery, enabling clients to focus on core operations without compromising on safety or quality.

Technical Support Services

- We work closely with our customers
- Local engineers and chemists
- Regular visits to customer facilities
- Onsite technical assistance
- Joint product development with our customers
